

# Roadmap to Restoring America

**THE DEBORAH FLORA PLAN**

**DeborahFlora.com**

A portrait of Deborah Flora, a woman with long reddish-brown hair and black-rimmed glasses, smiling. She is wearing a red vest over a plaid shirt. The background is a blurred green forest.

## Deborah Flora

- ✓ Proven conservative fighter
- ✓ Radio Host and Director of Public Policy
- ✓ Nationally recognized parental rights advocate
- ✓ Small business owner and award-winning filmmaker
- ✓ Wife of an 82nd Airborne veteran, mother of two
- ✓ Raised in Colorado, daughter of an Air Force officer

**Deborah Flora** is a conservative fighter who has spent her life advocating for our core American values: freedom, family, and faith. Growing up in Colorado, the daughter of a Lt. Col. serving at Lowry Air Force Base, Deborah was raised with a love of country and an understanding of what it means to serve, and she and her husband Jonathan, an 82nd Airborne Veteran, have worked to instill these same values in their two children.

Deborah's heart for service has led her to become a nationally recognized parental rights advocate, radio host, and fighter for conservative principles. Alongside her husband, Deborah leads two media production companies, most recently producing the documentary "Whose Children are They?" which premiered in theaters nationwide. She is the former host of *The Deborah Flora Show* on the Salem Radio Network, and she has been featured by numerous conservative media outlets, including Newsmax, Fox News, Townhall, and The Daily Wire. As the Founder of Parents United America and a Director of Public Policy for KNUS, she has stood for the issues that matter to us all from the school board to the state house. Now she is ready to take that fight to Congress.

Friends,

**America is more than a country.** It is the beautiful idea that has happened once in all of human history, the idea that every person is created with intrinsic value and therefore individual liberty, and that government therefore has only one job: to protect the rights and safety of its citizens. These principles are the exception, not the rule, in human history, and that is why the United States, the embodiment of this idea, is a truly exceptional nation.

It is this shared foundation of freedom for each person to live their lives, and raise their families, as according to their own beliefs—free from big government control—that unites and strengthens us as Americans. However, today this ideal is under attack by the Radical Left. They want to divide us and weaken a great country where the people, not the elite, have the power. They have destabilized our sovereignty and safety by opening our southern border and undermining law and order, weakened our economy through overregulation and out of control spending, undermined the family which is the cornerstone of Western Civilization and pushed their extreme agenda on our children. They have attacked truth and science, free speech and free thought.

**These pages contain my plan for fighting back and restoring the nation we love.** I truly believe that by working together here in Colorado's Fourth Congressional District, we can ignite a "new birth of freedom" and return to the ideals that lead to the greatest human flourishing. Together, we can save what Ronald Reagan called the "last best hope of man on earth" for ourselves and for our children. I would be honored to have your support for this fight.

In service,

Deborah Flora

*Republican Candidate for Congress*

### **The Flora Plan:**

- ✓ **Secure the border and strengthen our nation**
- ✓ **Get government off our backs and unleash our economy**
- ✓ **Protect parental rights and educational freedom**
- ✓ **Achieve energy independence and strengthen agriculture**
- ✓ **Defend our values to restore America**

## Secure the Border and Strengthen Our Nation

Our safety, security, and sovereignty are under attack, both overseas and here at home. It's time to secure our borders, strengthen our military, support law enforcement, and stand up to dangerous adversaries, like Iran and China.

### Securing The Border

- ✔ Build the wall and expand U.S. Border Agents' ability to patrol not process.
- ✔ Increase ICE funding and speed deportation proceedings.
- ✔ Close asylum loopholes and end "Catch and Release" policies.
- ✔ In light of the national security crisis at our border, reexamine the classification of cartels to expand viable options to fight them.
- ✔ Support states that are protecting their own borders and citizens, as the Biden administration has failed to secure our safety and our sovereignty.
- ✔ Empower DEA agents to stop the flow of fentanyl devastating our communities.
- ✔ End federal subsidies to sanctuary cities and incentives to illegal immigrants.

### Backing The Blue

- ✔ Advocate for recruitment and retention incentives for police officers and for providing them with more tools to keep our communities safe.
- ✔ Champion commonsense policies that protect and enable law enforcement to perform their duties.

- ✔ Strengthen penalties and enforcement for vandalizing and rioting on federal property.
- ✔ Encourage polices that protect the victims and deter the criminals.
- ✔ Penalize cities and states that "defund the police."
- ✔ Reverse dangerous legislation, such as in Colorado, that prohibits federal, state, and local law enforcement from working together.

### Strengthening Our National Security

- ✔ Eradicate divisive woke initiatives such as CRT and DEI from the U.S. military.
- ✔ Strengthen and enforce sanctions on Iran and other state sponsors of terrorism.
- ✔ Defund our enemies by becoming net energy exporters once again.
- ✔ Stand with Israel in the battle against radical Islamic extremism and barbarism.
- ✔ Put a stop to Chinese espionage activities on U.S. soil and purchase of American land.
- ✔ Ensure that all funding for America's security, including the border, is prioritized, and not tied to any other disconnected agenda.

## Unleash Our Economy and Protect Our Children

Before Biden and COVID, America's economy was booming. By getting back to the basics of fiscal conservatism, personal freedom, limited government, and lower taxes, we can restore prosperity for Colorado families and release the juggernaut of free enterprise to innovate and create jobs.

### Unleashing the American Economy

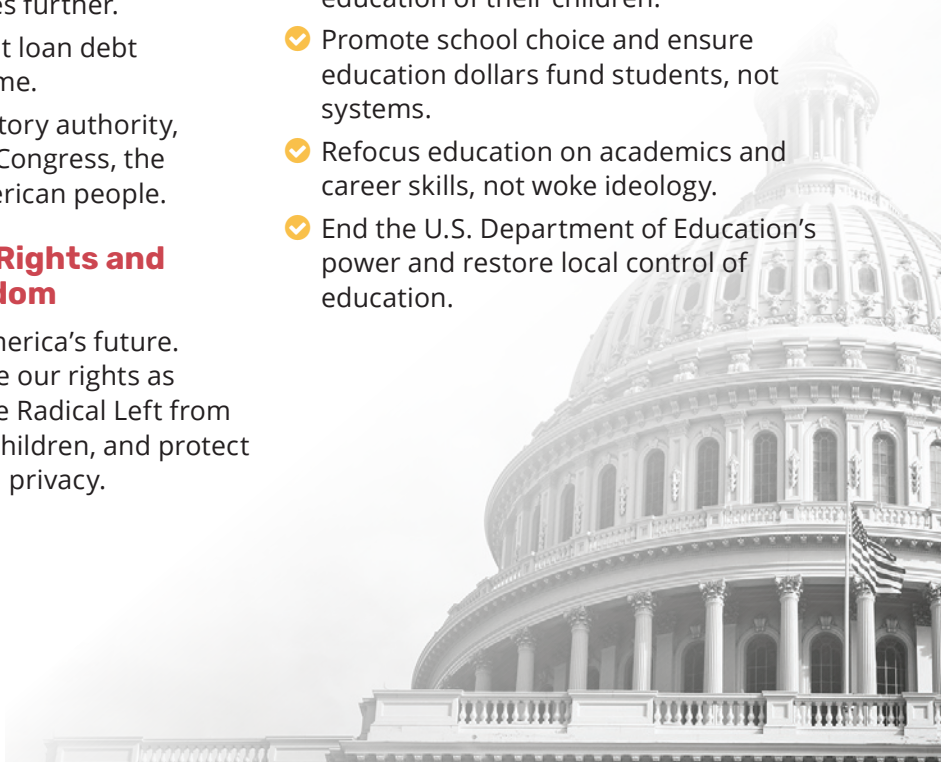

- ✓ Rein in out-of-control federal spending and eliminate unsustainable debt through a balanced budget amendment and single subject appropriation bills.
- ✓ Release America's energy sector to lower prices and end inflation.
- ✓ Repeal Biden's "Green New Deal" agenda and socialist mandates.
- ✓ Make the Trump tax cuts permanent and cut federal taxes further.
- ✓ Stop Biden's student loan debt redistribution scheme.
- ✓ Limit federal regulatory authority, restoring power to Congress, the states, and the American people.

### Protect Parental Rights and Educational Freedom

- ✓ Our children are America's future. We have to preserve our rights as parents, prevent the Radical Left from indoctrinating our children, and protect their innocence and privacy.

### Protecting Our Children

- ✓ Protect the privacy of girls in bathrooms and locker rooms and ensure a safe and fair playing field for women's sports.
- ✓ Safeguard children from experimental and irreversible sterilization and permanent gender surgeries.
- ✓ Pass legislation codifying the fundamental right of parents to guide the upbringing, medical decisions, and education of their children.
- ✓ Promote school choice and ensure education dollars fund students, not systems.
- ✓ Refocus education on academics and career skills, not woke ideology.
- ✓ End the U.S. Department of Education's power and restore local control of education.

## Achieve Energy Independence and Strengthen Agriculture

Our natural resources are a source of American prosperity and strength, however there is a “war” against rural Colorado and our energy sector that must be stopped. With policies that promote, rather than limit, our energy and agriculture sectors, we will restore affordability, lower inflation, and advance national security so that America can continue to feed and fuel itself and others around the world for generations to come.

### Promoting American Energy Security

- ✔ Restore America’s ability to develop and explore our own energy resources.
- ✔ Promote Colorado oil and gas as a source of energy independence and a key to becoming net energy exporters once again.
- ✔ Repeal Biden’s electric vehicle mandates, which increase costs and enable government elites to profit and unfairly tip the scales.
- ✔ End “Green New Deal” cronyism and limit EPA rulemaking authority.
- ✔ Pursue an all-of-the above energy policy including promoting biofuels and nuclear energy.
- ✔ Protect private property rights and block Biden’s “30 By ‘30” scheme.
- ✔ Safeguard and replenish our strategic petroleum reserve and prevent future misuse of our precious resources.

### Strengthening Colorado Agriculture

- ✔ Protect farmers’ and ranchers’ private property, water, and mineral rights.
- ✔ Pass a strong farm bill that protects Colorado farming and ranching families.
- ✔ Permanently repeal the “Death Tax” and reduce other federal tax burdens.
- ✔ Stop blue states, like California, from regulating Colorado agricultural practices and infringing further on our water rights.
- ✔ Fight any effort to tax or regulate carbon emissions from agriculture and remove Big Government overreach into ranching and farming operations.
- ✔ Kill the EPA’s Waters of the U.S. Rule and protect the Prior Appropriations Doctrine.
- ✔ Ensure Colorado ag producers have a seat at the table in trade talks, stop deceptive labeling and encourage Market Access Programs.
- ✔ Support funding for water, transportation, and broadband internet projects.

## Defend Our Values to Restore America

The fundamental values of life, liberty, and the pursuit of happiness, outlined in our nation's founding documents, have led to America being the most prosperous, and freest nation mankind has ever known. However, these principles that lead to the greatest human flourishing are under attack. Now is the time to stand our ground and reverse the erosion of our values and freedoms.

### Preserving Our Freedoms

- ✔ Fight Big Government Socialism and drastically reduce the unaccountable and unelected Bureaucratic State.
  - ✔ Promote election integrity and ballot security to ensure free and fair elections.
  - ✔ Stand for citizens' 2nd Amendment rights to protect themselves and their families.
  - ✔ Protect religious liberties, freedom of conscience, and freedom of expression.
  - ✔ Stop Big Tech's and Big Government's assault on our freedom of speech.
  - ✔ Champion the right to assemble that was arbitrarily prohibited during the government-imposed shutdown.
  - ✔ Eliminate any semblance of a two-tiered justice system based on political views or personal beliefs and ensure Constitutional courts.
- ✔ Reinforce individualism by eradicating neo-racist ideologies like Critical Race Theory and DEI.
  - ✔ Protect the innocence of our children from radical agendas and safeguard them from politicization of the classroom.
  - ✔ Teach our founding principles and restore civic engagement and civil dialogue.

### Holding Government Accountable

### Cherishing Our Values

- ✔ Ensure that parents, not bureaucrats, have the right and responsibility to educate their children about identity, personal beliefs, and values.
  - ✔ Promote policies that recognize the intrinsic value and dignity of every human life, and support women in crisis.
- ✔ Fight the weaponization of our justice system against political opponents, concerned parents, and conservatives.
  - ✔ Hold the Biden administration accountable for its many failures, overreaches, and corruption through diligent and unwavering oversight.
  - ✔ Restore representative government and replace career politicians by supporting term limits for members of Congress.
  - ✔ Promote greater transparency at all levels of government.
  - ✔ Require all laws that apply to citizens apply to all elected officials.
  - ✔ Restore the separation of powers by prohibiting the Executive Branch from legislating and protecting the Judicial Branch from political agendas.

## A Conservative Fighter for Colorado

"If we stand together today, I truly believe that future generations will look back and gratefully say that we were the generation that pushed back from the precipice and restored America, the 'last best hope of man on earth'. This is our fight. This is our time."
